

# Meg Benedicte

*ascension guide*

Founder of Unified Field Therapy®

## Biography

Meg Benedicte is the owner of Soulful Services LLC, a holistic-based business in Mt. Shasta, Ca. In 1994, Ms. Benedicte experienced a profound awakening that activated her inherent template for utilizing the **Quantum Vortex™** as a powerful tool for transformation. Through extensive research in Bio-Energetics and Quantum Healing, Ms. Benedicte discovered the magnitude of change possible when tapping into the Zero Point Field of vortex energy. According to research physicists, a spinning Torus Vortex provides access to the most powerful force in the Universe - the GForce.

With this transformational quantum technique, Ms. Benedicte can access unlimited free energy to eradicate disease, polarity and the decomposition of time. She helps clients to quickly shift consciousness, unlock karma and remove energetic patterns so they can clear out-of-date 3D systems that limit their human experience.

By utilizing sacred geometry and *Phi* Harmonics to enhance wave inter-action, she developed the powerful **Quantum Vortex™** Meditations that are coded to bend space, access the 5th Dimension and open the crown chakra portal to the higher self.

For the past 20 years, Ms. Benedicte has been sharing these dramatic findings in her proprietary process, in the **Quantum Vortex™** Certificate Teleseminars and with global audiences in telecasts/webinars, various speaking events, radio shows, blogs and articles, CD Meditations, and her book, *Soul Realized: Unlocking the Sacred Keys of Becoming a Divine Human*.

During 2013, Ms. Benedicte will continue to offer monthly Global Intention Meditations that focus on birthing a New Earth paradigm, along with her powerful weekly **Quantum Vortex™** Energy Healing Activations to her subscription Membership. Her loyal clients regularly experience deep healing along with an abundance of life force, all while releasing limiting programs and energy patterns, fears and belief systems that have long blocked their well-being and self-realization.
